FREAK MASONS "To Fuck is Human, To Freak is Divine"

Made by Freaks, for Freaks and in the name of Freakery...Under the ever present watch of the All Freaking Eye, the Masons have labored for over one year on this epic multi-media project.

The Divine release includes an audio ep, a full video ep, and multiple artwork items. It also serves as a bit of a documentation...a glimpse into the real activities of and motivations behind the life of a true freak.

These are tale of depravity, tales of morality and an invitation to defy both. The great Marquis de Sade proclaimed the virtuous path to be a failure.

However, cher Marquis, things are not always so simple as they seem.

The Eye advises, all to simply relax, and good things will come.

The gates of the PDXXX Freak Masons temple have been flung open.

Capture a glance while you can.
